MENTION PRICE LIST No. 503
JANUARY 14, 1953

T.W. WOOD & SONS
RICHMOND, VIRGINIA
SEEDSMEN SINCE 1879

PRICES FIELD SEEDS

**SUBJECT TO CHANGE
AND BEING UNSOLD.**

Seed corn, both open pollinated and hybrid, in exceedingly short supply. Lespedeza and soy beans, stocks very limited for best quality seed. Believe prices on practically all items are at a low point with indications for a firm market through the spring season.

OPEN POLLINATED CORN Quart (2 lbs.), postpaid, 65c. on all Varieties ALL SEED CORN IN VERY SHORT SUPPLY THIS SEASON

HYBRID CORN Prices for Best Flat Kernels

High Germination. Treated. 1-bu. Cotton Bags Included
5-Bus. Lots, 25c. Per Bus. Less. Quart, 2 lbs., postpaid, 85c.
Good Quality Round Grades \$2.50 Per Bu. Less

Tests up to 10 years at experiment stations in 11 states show large rounds
outyielded flats 6.2% and give more uniform stands

The terrific drought last summer caused an acute shortage of seed corn throughout the South, open pollinated and hybrid. The intense heat and drought seriously hindered pollination of hybrid seed production fields, causing a high per cent of large round grains, many barren cobs, and very little good flat grains of Southern adapted hybrids. The Extension and all Agricultural Agencies are intensively educating Southern farmers to plant rounds. In case we sell out of flats of your first choice hybrid before receiving your order, please permit us to ship rounds, or flats of another hybrid similar in performance and adaptation, before these also sell out.
